A self-taught **front-end web developer** with the goal of becoming a full-stack engineer. I can learn and work independently, as well as collaboratively. I am friendly, outgoing, and excited to join a web development team.

## SKILLS

---

- **Front-end:** HTML, CSS, JavaScript, JSON, jQuery, Bootstrap, Sass, Tailwind, React, Vite, Jest, Figma
- **Back-end:** Node.js, MongoDB
- Excellent verbal and written communication skills.
- Great organizational and problem-solving skills.
- Ability to learn and adapt quickly.

## CERTIFICATION

---

Meta Front-End Web Developer Certificate

January 2024

- This certificate was the result of a 9-course series on front-end web development. The courses gradually progressed in difficulty as they moved through topics like HTML, CSS, JavaScript, version control, UX/UI, React, and Advanced React techniques. The culmination of the series was a capstone project that involved creating a React app using Fetch API and unit testing. For certificate verification: [Coursera](#).

## PROJECTS

---

[West & Main](#)

April 2024

- A home and decor project to showcase my HTML, CSS, and vanillas JS skills.

[Sweet and Savory Restaurant](#)

Fall 2023 - Present

- Designed my first project using React with plans to include an ecommerce feature. I created the brand and design in Figma and implemented form validation and micro-interactions. I also used component-based programming to build the menu and will soon build an order online page.

## EDUCATION

---

History, Doctor of Philosophy

2012 - 2022

University of Colorado, Boulder, CO

Bachelor's Degrees in History and Humanities, *summa cum laude*

2012

University of Colorado, Boulder, CO
